

DRINKIN' BONE

Intro: 4 measures

Well it's Friday evenin' six o'clock
And all my friends are twistin' off
I'm at the house just turnin' on T.V.
well they all wonder why I've changed
How many times must I explain
It's basic honky tonk anatomy

The drinkin' bone's connected to the party bone
The party bone's connected to the stayin' out all night long
And she won't think it's funny
And I'll wind up all alone
And the lonely bone's connected to the drinkin' bone

Hey two plus two is always four
And down is south and up is north
Thirty-two degrees is freezing cold
You play with fire you wind up burned
The early-bird gets the worm
But the only thing you really need to know

Is the drinkin' bone's connected to the party bone
The party bone's connected to the stayin' out all night long
And she won't think it's funny
And I'll wind up all alone
And the lonely bone's connected to the drinkin' bone

Interlude: 6 measures

Yea now sing it with me let's make sure you know **stop**

guitar and cowbell only

The drinkin' bone's connected to the party bone
The party bone's connected to the **start** stayin' out all night long
And she won't think it's funny
And I'll wind up all alone
And the lonely bone's connected to

The drinkin' bone's connected to the party bone
The party bone's connected to the stayin' out all night long
And she won't think it's funny
And I'll wind up all alone
And the lonely bone's connected to the drinkin' bone
