

# I WANT MY GOODBYE BACK

**Intro: 8 measures**

I didn't mean to break your window I was trying to wake you up  
'Cause when I saw you out last night it hit me like a truck  
I tried to call all day at work didn't they give you my fax  
Hey I want my goodbye back

I had a momentary, temporary lack of self-control  
I said this, and I said that I was really on a roll  
It's been downhill ever since my good sense jumped the track (ooh)  
And I want my good bye back

My doctor says I'm better now but I still feel the pain  
When I showed him your picture he said, "Man, you are insane!"  
He asked me for your number and now his left eye is black  
And I want my good bye back

I had a momentary, temporary lack of self-control  
I said this, and I said that I was really on a roll  
It's been downhill ever since my good sense jumped the track (ooh)  
And I want my good bye back

Well I might have been insensitive but I have learned a lot  
I know what I can live without and I know what I ain't got

**Guitar solo: 16 measures**

I had a momentary, temporary lack of self-control  
I said this, and I said that I was really on a roll  
It's been downhill ever since my good sense jumped the track (ooh)  
And I want my good bye  
Baby, you know I, I want my goodbye back!!!

**Outro: 4 measures stop**
