

A LITTLE LESS TALK (And A Lot More Action)

Intro: 4 measures

I was getting kind of tired of her endless chatter
Nothing I could say ever seemed to matter
So I took a little drive just to clear my head
I saw a flashing neon up ahead
It looked like a place to find some satisfaction
With a **stop** little less talk and a lot more action

I paid the man at the door and pushed my way to the bar
Shouted for a drink over a screaming guitar
A drunk on a stool tried to mess with my head
But I didn't even listen to a word he said
I knew somewhere amid all this distraction
Was a **stop** little less talk and a lot more action

A little less talk if you please
A lot more loving is a what I need
Let's get on down to the main attraction
With a **stop** little less talk and a lot more action

Interlude: 12 measures

Well she was fighting them off at a corner table
She had a **longneck bottle she was peeling the label**
The look on her face it was perfectly clear
She said **somebody please get me out of here**
The look she shot me through the glass refraction
Said a little less talk and a lot more action

A little less talk if you please
A lot more loving is a what I need
Let's get on down to the main attraction
With a little less talk and a lot more action

A little less talk
A lot more action
Let's get on down to the main attraction
With a little less talk and a lot more action
Get on down to the main attraction
With a **stop** little less talk **||** and a lot more action
