

LOVIN' ALL NIGHT

Intro: drums start

Now baby pull the covers back over my head,
I don't wanna get it up out of this bed,
I don't wanna drag it on off to work,
That big boss man is a really a flirt,

We've been lovin' all night, just about hit me (ooh)

Everything right, Hope it don't get me, (ooh)

I'm just gonna live it just as long as I can, (ooh)

I'm gonna make it every part of my plan,

Lovin' all night hanging on tight,

stop No doubt about it been lovin' all night yeah,

Well you tell me I'm as pretty as a fresh cut flower,
When you show me how you love me in the wee small hours,
While everybody's sleeping on around this town,
Lovin' all night makes the world go round,

We've been lovin' all night, just about hit me (ooh)

Everything right, Hope it don't get me, (ooh)

I'm just gonna live it just as long as I can, (ooh)

I'm gonna make it every part of my plan,

Lovin' all night hanging on tight,

stop No doubt about it been lovin' all night yeah,

Guitar Solo:

Ain't no use talking when you're looking so fine,
When you move your body up close to mine,
