

# ME NEITHER

## Intro: 4 measures

Darlin' I've been standin' here just watchin' you all night  
And I think I've even caught you watchin' me a couple times  
If I don't ask I'll never know  
This may sound dumb, but here we go  
Do you believe in love at first sight **stop**

Me neither, I'm glad that we agree  
Believe me, that's a big relief  
Well, this place is awful crowded and this music is so loud  
Would you like to go and grab a bite to eat, **stop** me neither

It's nice to finally meet a girl who doesn't move to fast  
I was only checkin' that's the reason that I asked  
Relationships need time to grow  
You and I should take this slow  
And darlin' tell me, would you like to dance **stop**

Me neither, I was just being polite  
Thank goodness, my feet are much to tired  
I'm sure you're tired too  
I can see an empty booth  
Would you like to maybe sit and talk a while, **stop**

Me neither, we'd never get along  
I'm thinkin', there's no chemistry at all  
This has been a waste of time  
And I'm runnin' outta lines  
Don't you think it's time for me to end this song **stop**  
Me neither

## Guitar Solo: to end
