She gets in her car and she drives away too fast
Her dad looks out the window and thinks "this ain't gonna last"
But if he could only see the woman behind her eyes
He'd understand why his daughter always flies
And why she cries **2 3 4 Stop**

This world moves too slow
Gotta grab my stuff and go before I die
Yeah say what you will
But I'm not standing still while I'm alive **2 3 4 Stop**
Get in I'll drive

Interlude: 4 measures

He throws his boots in his bag and he walks out the door
With his saddle on his back, but it's not a game anymore
If he gets knocked down, he'll just get up and hop in again
With destiny on his side he knows that he's bound to win
And he keeps sayin' **2 3 4 Stop**

This world moves too slow
Gotta grab my stuff and go before I die
Yeah say what you will
But I'm not standing still while I'm alive **2 3 4 Stop**
Crawl up and ride

Solo: 8 measures

From his hospital bed he stares out his window
Just waitin' for the time when it's his turn to go
The doctor, he tells him it could be any day
So he clinches his fist as he slips away
And all he can say **2 3 4 Stop**

This world moves too slow
Gotta grab my stuff and go before I die
Yeah say what you will
But I'm not standing still while I'm alive **2 3 4 Stop**
Hold on tight
