

THAT'S WHAT SHE GETS FOR LOVIN' ME

Intro: drums then harmonica

She said, what she wants is a man to be faithful,
True heart somebody willing and able,
To stay by her side through thick and thin,
A tender touch every now and then,
She's not hung up on fairytales,
Or some dream at the bottom of a wishin' well,
Fancy cars or diamond rings,
What she wants most are the little things,

Well that's what she gets,
That's what she gets,
That's what she gets **pause** for lovin' me,

At times I lay awake at night,
Stare at her layin' by my side,
Knowin' there in her heart as she sleeps,
She can forever count on me,

Well that's what she gets,
That's what she gets,
That's what she gets for lovin' me,

Guitar solo: 12 measures (3X)

Whatever turns her on, I'm here to do it, (ooh)
Till the day they write my name in stone, (ooh)
I'll live to prove it (ooh) **stop**

(bass starts) Oh, that's what she gets,
That's what she gets,
That's what she gets for lovin' me,
Oh, that's what she gets,
Yea, that's what she gets,
That's what she gets, **stop**
(drums start) For lovin' me,
