

WHEN YOU LIE NEXT TO ME

Intro: piano only

Oh oh (soft cymbal roll)

Maybe, tonight

We could close the door and lock ourselves inside

Take time to feel

I don't wanna miss the chance to be so real (chimes)

The days all fly away and I forget the truth

Everything that matters is in this room (cymbal-drums start)

When you lie next to me breathin' the air I breathe

We don't have to speak and just be

Our love's a precious thing don't wanna waste a day

Or one more minute without you (stop) in it

Life is so sweet when you lie next (start) to me (chimes)

My heart is yours

But every part of me still wants to give you more

More time to love

Cause you never know when life will leave us

I wanna take in all the beauty here oh

Let the world around us just disappear

When you lie next to me breathin' the air I breathe

We don't have to speak and just be

Our love's a precious thing don't wanna waste a day

Or one more minute without you in it

Life is so sweet when you lie next to me

When you lie next to me (1, 2, 3, 4, 2, 2, 3 stop)

When you lie next to me breathin' the air I breathe

We don't have to speak and just be

Oh love's a precious thing don't wanna waste a day

Or one more minute without you (stop) in it (chimes)

Life is so sweet when you lie next to me

When you lie next to me
